

COASTAL FORCES HERITAGE TRUST

COASTAL FORCES MONUMENT FUND DONATIONS

How to donate

Thank you for thinking about making a donation to support the construction of this remarkable monument.

There are a number of ways in which you can part with your cash:

- At a Coastal Forces event or talk by one of our lecturing team, the presenter will be armed with their mobile phone or tablet which has the SUMUP application loaded. You can select an amount and by holding a suitable credit card close by, funds can be transferred securely.
- On our website, you will see a number of 'buttons' with the words 'Donate now'. Clicking on these will take you to our JustGiving page, where you will find a number of options for making a secure payment.
- In liaison with our fundraising team, we can provide you with our bank account details and a Gift Aid form.

Every donation, however large or small, will elicit an emailed receipt and response from the Trustees. Your donation is part of a designated fund for the construction of the monument and can be classified 'reserved' if you so wish. Such a classification would apply to larger sums by default.

The Trust can demonstrate clear separation of fundraising activity and the receipt and handling of monies (by a third-party retained organisation) and external examination of accounts and financial practices; details of our internal procedures can be verified by contacting our external bookkeepers at info@balancingthebooks.co should you have any questions or concerns.
